Define the Problem Statements
Project Name : FitBuddy

Customer Problem Statement :

A fitness user needs a personalized and easy-to-follow workout plan based on their age, weight, fitness goal, and preferred workout intensity. However, general fitness plans may not suit their individual needs, making it difficult to choose the right exercises and maintain a consistent routine. FitBuddy solves this problem by using Gemini AI to generate a customized 7-day workout plan along with nutrition and recovery guidance.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A person who wants to improve fitness	Create a workout plan suitable for my fitness goal	I don't know which exercises and intensity are suitable for me	General workout plans are not personalized to my age, weight, goal and intensity	Confused and unable to follow a proper fitness routine
PS-2	A person who wants regular fitness and nutrition guidance	Follow a complete workout and nutrition	It is difficult to get workout and nutrition guidance together	Fitness guidance is often scattered and may not adapt to my feedback	Unsure about how to maintain a consistent routine
PS-3	A fitness user who wants to improve my routine	Adjust my workout plan when my needs change	I don't have an easy way to modify my plan	My goals and preferences can change and feedback should be considered	Frustrated with following the same unsuitable plan

Fitness users need personalized workout guidance because general fitness plans may not match their individual needs, making it difficult for them to choose suitable exercises, maintain consistency, and achieve their fitness goals.
